# ATHARVA R. BHAGWAT

Electronics and Telecommunication Engineer

Pune, Maharashtra, India | +91 7410598906 | atharvabhagwat2006@gmail.com | linkedin.com/in/atharvabhagwat13 | github.com/Atharva1305

## Professional Summary

B.Tech Electronics & Telecommunications student at VIT Pune with hands-on embedded systems experience across 20+ ESP32, Arduino, and STM32 firmware projects and 10–12 fabricated PCBs during an 1 year industry internship. Comfortable across the stack from 8051 ALP and Embedded C to cloud-connected IoT dashboards using Blynk and ThingSpeak.

## Education

**B.Tech, Electronics & Telecommunications** Aug 2025 – Jun 2028
*Vishwakarma Institute of Technology, Pune*

**Diploma in Engineering, Electronics & Telecommunications** Sep 2022 – Jun 2025
*Government Polytechnic, Amravati*

**SSC** Jun 2016 – Jun 2022
*Rajeshwar Union High School, Badnera*

## Experience

**Intern — MDBelectrosoft** Jul 2024 – Jun 2025
*Amravati, Maharashtra, India · 1 Year*

- Built and tested 20–25 embedded projects using ESP32, Arduino, and STM32, integrating Blynk and ThingSpeak for IoT monitoring and control.
- Designed 10–12 PCBs using Eagle and KiCad, while debugging hardware prototypes and supporting client-facing embedded projects.

## Projects

**Smart Desk Assistant Bot Using ESP32 C3 mini** Oct 2025 – May 2026
*Vishwakarma Institute of Technology · Team Project*

- Built an ESP32-based smart desk assistant providing real-time weather updates, an NTP-synchronized clock, reminder alerts, and an OLED display interface with remote control through Blynk IoT.
- Co-authored the resulting research paper, "Design and Implementation of an IoT-Based Desk Assistant Bot Using ESP32," presented at an IEEE conference in July 2026.

**IoT-Based Smart Energy Meter with Mobile App & Payment System** Mar 2025 – May 2025
*Government Polytechnic, Amravati · Team Project*

- Built an ESP32-based energy monitoring system integrating voltage and current sensors, RTC, and relay control with a mobile application for real-time monitoring and payment processing.
- Co-authored the resulting research paper published in a UGC Care-approved, peer-reviewed journal in December 2025.

## Publications

- Design and Implementation of an IoT-Based Desk Assistant Bot Using ESP32 — *IEEE Xplore, Jul 2026*

## Honors & Awards

- Winner — Circuit Debugging Competition — Techno-Stream 2025 | Circuit Fixer — Vidyotan 2024 | Puzzle Competition — Ignite 2024
- Runner-up — MSBTE State-Level Technical Paper Presentation Competition 2024 | Paper Presentation — Techno-Culture 2025 | Quiz Competition — Techno-Stream 2025 | Tech Quiz — Anusandhan 2025

View Award Certificates

## Technical Skills

- **Programming:** C, C++, Embedded C, Python, 8051 ALP
- **Microcontrollers / Boards:** 8051, LPC2148, ATmega328P, ESP8266, ESP32, STM32
- **Tools / IDEs:** Arduino IDE, STM32CubeIDE, KiCad, Eagle, MATLAB, Android Studio
- **IoT / Hardware:** Blynk, ThingSpeak, MQTT, PCB Design & Fabrication, Circuit Debugging
